

AKHIL INDUSTRIES BUSINESS PROFILE

Manufacturer of Electrical Panels

SINCE
2004

About Us

Foundation of the company

Founded in 2004 by **Vinod Chauhan** and **Sanjay Prajapati**, Akhil Industries has established itself as a trusted name in the field of electrical panel manufacturing. With over two decades of expertise, we specialize in designing, engineering, and delivering customized power distribution solutions that meet the highest standards of safety, quality, and performance.

MISSION: To engineer superior electrical and automation solutions that enhance industrial efficiency, safety, and productivity while building lasting partnerships with our clients.

VISION: To be the leading provider of innovative electrical automation solutions, setting industry standards for quality, reliability, and technological advancement.

Company Values

1

Quality-driven manufacturing

Rigorous quality control processes ensure every panel meets international standards

2

Customer-first approach

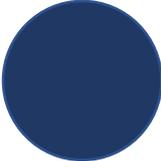

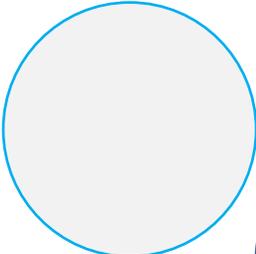

Tailored solutions designed around specific client requirements and industry needs

3

Innovation and adaptability

Continuous technological advancement to meet evolving industry demands

Our Team

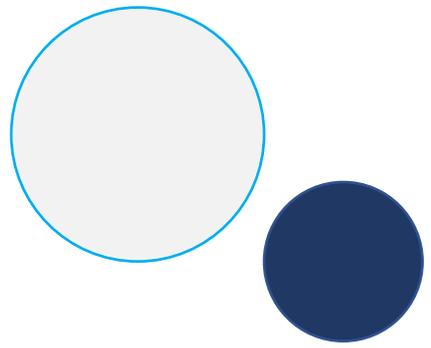

At **Akhil Industries**, our strength lies in the people who drive innovation, quality, and excellence every day. Our teams are a perfect blend of experience, expertise, and dedication, ensuring that we deliver the best products and services to our clients.

Word From The Founders

"At Akhil Industries, we don't just manufacture electrical panels—we engineer solutions that transform how industries operate. Our commitment to excellence drives us to continuously innovate and exceed our clients' expectations."

"Every project presents an opportunity to showcase our expertise and build lasting partnerships. We take pride in delivering not just products, but comprehensive solutions that enhance operational efficiency and safety."

"Our success is measured by the success of our clients. When their operations run smoothly and efficiently with our solutions, we know we've fulfilled our mission."

Our Services

Comprehensive electrical and automation solutions designed to meet the diverse needs of modern industrial operations.

Control Panel Design

Custom electrical control panels engineered for optimal performance and safety in industrial environments.

Liasoning Services

Approvals, documentation, and compliance with government and utility departments for seamless project execution.

Installation Services

Professional installation and commissioning services ensuring seamless integration of electrical systems.

Maintenance Support

Comprehensive maintenance programs to ensure long-term reliability and optimal performance of electrical systems.

Technical Consulting

Expert consultation services for electrical system optimization and troubleshooting complex industrial challenges.

Quality Assurance

Rigorous testing and quality control processes ensuring all solutions meet industry standards and specifications.

Our Products

At Akhil Industries, we specialize in delivering high-quality, reliable, and innovative products that cater to diverse industries and client needs. Each product is crafted with precision, using superior raw materials and adhering to strict quality standards.

HT VCB PANEL

The HT VCB Panel is engineered for safe and reliable control, protection, and switching of high-voltage power systems using vacuum circuit breaker technology, ensuring maximum efficiency and safety in power distribution.

PCC PANEL

Distributes power to various sections of an industry
Designed for high fault level withstand capacity

MCC PANEL

Multiple motors in a centralized location Ensures operational safety and reliability Available with DOL, Star-Delta, VFD starters Suitable for industrial plants, process industries

IMCC PANEL

The IMCC Panel integrates advanced control, communication, and monitoring features to manage multiple motors efficiently, offering real-time diagnostics, energy optimization, and enhanced operational reliability.

Our Products

FIRE MCC PANEL

The Fire MCC (Motor Control Centre) Panel is designed for reliable and efficient control of fire pump systems in commercial, industrial, and residential facilities. It ensures uninterrupted operation during fire emergencies, complying with national safety standards

APFC PANEL

The APFC Panel is designed to automatically maintain the desired power factor by switching capacitor banks through intelligent relay control, improving energy efficiency, reducing power losses, and avoiding utility penalties.

MLDB PANEL

The MLDB Panel is designed to efficiently distribute power to various lighting circuits while ensuring maximum protection and reliability. It provides a safe and organized method for controlling and monitoring lighting systems in industrial, commercial, and residential facilities.

VFD PANEL

The VFD Panel is designed to control motor speed and torque by varying input frequency and voltage, ensuring energy efficiency, smooth operation, and extended motor life in industrial and commercial applications.

BUS DUCTS

Bus Ducts provide efficient and compact power distribution between electrical equipment, offering high current-carrying capacity, reduced power loss, and enhanced safety compared to conventional cabling systems.

AMF PANEL

The AMF Panel automatically switches the power supply from mains to generator during power failure and back to mains when restored, ensuring uninterrupted power and protecting critical electrical loads.

FEEDER PILLAR PANEL

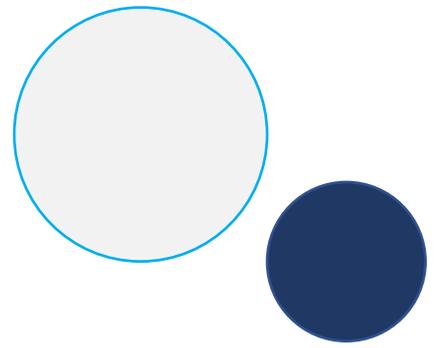

The Feeder Pillar Panel serves as a central point for controlling and distributing electrical power in outdoor networks, offering robust protection, easy maintenance, and reliable performance for street lighting and industrial installations.

SEALING WORK

We provide professional Sealing Work for electrical panels and junction boxes to prevent unauthorized access or tampering, ensuring accuracy, safety, and compliance with utility and regulatory standards.

Our Clients

We're proud to present to you some of our clients

We're proud to partner with industry leaders who trust us to deliver exceptional electrical and automation solutions. Our client portfolio spans across manufacturing, infrastructure, and commercial sectors.
